### Proceeds from Canoe the Credit will support the Conservation Youth Corps

The Conservation Youth Corps (CYC) is a youth program of Credit Valley Conservation for high school students living or going to school in the Credit River area. This program provides incredible environmental/conservation-focused volunteer opportunities for our local youth.

CYC Participants gain practical experience in conservation and natural resource management in a safe and structured environment and are given a chance to become directly involved in local conservation projects, meet new friends and fulfill their community service volunteer requirements for high school graduation.
